February 17, 2006

Opinions to be expressed.

My opinions will explain the differences in cost, installation, programming, and maintenance of different types of Fire Alarm Systems. Specifically the differences between a traditional hard wired systems and an addressable systems including the following:

- Conduit and wiring requirements
- Size of building that the system is protecting
- Differences in devices between systems
- Programming, labeling, and initialization
- System testing
- Planning
- And other project considerations
